## Mandatory Water Meter Replacement

Dear Drinking Water Customer,

Manchester Township is upgrading its water meters, and your location is included in the next project area. VEPO Metering has been contracted to replace the water meters. Notice of Water Meter Replacement can also be found on the Town's website: <https://manchestertwp.com/utility-notice.pdf>

**There is no cost** for the replacement, but you are required to have your water meter replaced. To install the new equipment VEPO Metering will require:

- Access to the meter inside your home.
- The water meter area to be **clear and accessible**.
- An adult 18 years or older **needs** to be present at the time of installation.

A four-hour block will be scheduled. Once the technician arrives the meter installation should take **approximately 30 minutes**. Water usage will be suspended during this time.

VEPO Metering was selected based on their experience as a meter installation contractor. All installers will have identification, wear uniforms with a photo ID, travel in marked vehicles and have completed background checks.

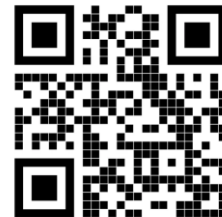

You can schedule an appointment with VEPO Metering in any of the following ways:

📞 Call VEPO Metering at **1-877-860-8376 8376 (Office hours Monday through Saturday from 8:00 am to 8:00 pm / Sunday: CLOSED)**

✉ Email us at [info@vepometering.com](mailto:info@vepometering.com)

🌐 Schedule online at [utilityscheduler.com/scheduler/manchester](http://utilityscheduler.com/scheduler/manchester)

**\*Please have your water account # ready to use the online scheduler**

**Please call Manchester Township with any questions or concerns at (732) 657-8121.**

Manchester Township District and VEPO Metering thank you for your cooperation in making this a successful program.

## Mandatory Water Meter Replacement

### WATER METER REPLACEMENT PROGRAM – WHAT TO EXPECT

#### Benefits of the New AMI Water Meters

The Borough is upgrading to **Advanced Metering Infrastructure (AMI)** technology to improve service and efficiency.

#### Key benefits include:

✓ **Accurate Meter Readings**

Eliminates estimated bills by automatically transmitting readings.

✓ **Early Leak Detection**

Helps identify potential leaks sooner, which can prevent costly water damage.

✓ **Improved Billing Transparency**

Residents will have more consistent and reliable water usage data.

✓ **No More Manual Readings**

Reduces the need for future in-home visits.

---

#### A Quick and Simple Installation

- Most installations take **approximately 30–60 minutes**
  - Water service will be temporarily interrupted during installation
  - An adult (18+) must be present
- 

#### Questions or Need Help Scheduling?
